★★★★★
"NOWATCH doesn't distract me or annoy me with notifications and I only have to charge it every 5 days."
App store review by doggono

CURRENT PILLARS

DIRECT TO CONSUMER via Shopify

Live, shipping Amsterdam to USA. Primary data-rich channel. We own the customer education, journey, relationship. Attribution and retention opportunities.

META + UGC PROGRAMMING - *launching April 2026*

Augmenting our social presence on Instagram, we will partner with hand-selected diverse creators. This will encompass micro-creators at the University level on TikTok, affiliate outreach and like-audiences modeling Jenna Kutcher (22 conversions, 1M audience size) to unique personalities initially in downhill skating, music, and business to further diversify our reach. This multi-layered approach bookend Instagram with more presence also in TikTok and YouTube. Be prepared for news-hacking and trend creation to activate into Meta with Frank.

PR ENGINE - RUNNING

Elle PR generating podcast, media + influencer placements with working product. Pivoted 2026 plan active (see here)

COMO FC — MAY 1, 2026

Serie A partnership launching May 1. Trust building from athlete experiences are critical to USA business and soccer is frenetic in America with World Cup 2026 on US soil (June 11 - July 19) = athlete-as-human credibility.

CLINICAL STUDY - POTS

21 participants · 6 weeks · EU 90% felt more in control of their condition –27% reduction in symptom severity scores 75% reported improved well-being *Self-reported outcomes. N=20 complete. NOWATCH is not a medical device.*

The standard playbook says go wide. We're going deep — one category, one conviction, one market at a time.

COMPETING ON PHILOSOPHY, NOT FEATURES

"We help you recognize the toll daily life demands have on your health — body AND mind — so you build the skills to eventually not need us."

AUTONOMIC HEALTH + BODY-MIND

Others started on fitness — body only. We are body AND mind from day one. We track the system that governs how you adapt to daily demands: your autonomic nervous system. Mental wellness is the outcome; ANS health is the mission.

COMPASSIONATE TECH

No scores. No gamification. We want users to outgrow us. That's not a product weakness — it's the most radical thing in wearables.

EVERY-SECOND DATA PRECISION

Second-by-second physiological data. Clinical-grade and science-led, not a spec sheet claim.

CONSUMER JOURNEY DESIGN

Awareness → Response → Practice → Resilience.
We build behavioral change, not dependency. The goal is the day wearers only need us passively.

WHAT IT IS

By driving **intergen**erational audiences, NOWATCH reaches multiple age groups at once — not by watering down the message, but by anchoring to a value that holds regardless of life stage.

HOW IT WORKS

Apple, Patagonia, Nike, Eight Sleep — their core doesn't change by generation. In health, this shows up when a brand owns an outcome people want at every age, just for different reasons.

THE SWEET SPOT

A brand truth strong enough to travel across cohorts — expressed through channels and creative that are age-aware, even when the message itself isn't.

BRAND TRUTH **The goal is never calm. It is knowing your load well enough to choose.** *It's not about fewer butterflies. It's about what they do next.*

TARGET AUDIENCES — USA GTM

THREE AUDIENCES

Synthesized from HQ Global Marketing research and USA Intergen Strategy — extended for USA market sequencing and channel activation.

HQ HQ Global Marketing | USA USA Intergen Strategy | BLEND Synthesized for USA GTM

BLEND **QUALIFYING LENS — COMPASSIONATE TECH / DIGITAL PIONEER MINDSET**

Across all three audiences: people who want technology that works quietly in the background — not another thing demanding their attention.

WAVE 1

HIGH-STRESS & CLINICAL

SEGMENTS

- HQ High-stress physiology regulators
- HQ Women's health - POTS study and newly launched (April 2026) menstrual phase data.
- USA Industry innovators (clinical)

WHY SCREENLESS

Needs proof the product delivers. Clinical credibility is a major US market unlock.

MARKET CONTEXT

$7.2B US women's health
devices market (2024), CAGR 8.6%
23.8% CAGR wearables
fastest segment in women's digital health

WAVE 2

LONGEVITY & RECOVERY

SEGMENTS

- USA Longevity Audience
- HQ Burnout recovery managers
- BLEND Corporate athletes / execs

WHY SCREENLESS

Body signals matter more than notifications.

MARKET CONTEXT

$23.5B US longevity
services market (2025), → $63B by 2035
76% of US workers
experience burnout (2025)
Premium LTV · longevity spend

WAVE 3

WELLNESS ENTHUSIASTS

SEGMENTS

- HQ High mental load regulators
- HQ Balance seekers
- BLEND Intentional tech adopters

WHY SCREENLESS

Distraction is the enemy. One less thing to manage.

MARKET CONTEXT

43% of US adults
actively reduced screen time (2025)
$500B+ US wellness spend
annually, growing 4–5%/yr

BLEND SHARED CONVICTION

BRAND TRUTH — The goal IS never calm. It was knowing your load well enough to choose.
SUPPORTING LINE — The mechanism (JIT) "The right nudge, at the right moment — and silence when you don't need one."
SUPPORTING LINE — The humanity (butterfly) "It's not about fewer butterflies. It's about what they do next."

Non-target: Active fitness maximizers (est. 65M) — performance/gamification orientation misaligns with brand. | Market figures: adjacent TAM, not NOWATCH SAM. | Sources: HQ Global Marketing Research · USA Intergen Strategy

COMPETITIVE POSITIONING

WE ARE NOT PLAYING THEIR GAME

Every major competitor picked a lane and stayed in it. We are redefining health tracking and have built something others can't copy without them becoming a different company.

	Apple Watch	Oura Ring	WHOOP	Garmin/Fitbit	NOWATCH
Primary Focus	Everything / notifications	Sleep + readiness	Athletic recovery	Fitness tracking	ANS health + daily demand adaptation
Has a Screen?	Yes — always on	No	No	Yes — always on	No — by design
Subscription Fee?	Apple Fitness+ fee	$6/month required	One ($199/yr, includes WHOOP 5.0), Peak ($239/yr, includes WHOOP 5.0), Life ($359/yr, includes the medical-grade WHOOP MG)	$7/month required	None, ever
Data Privacy	US data laws	US data laws	US data laws	US data laws	GDPR — worldwide
Stress Detection	Basic HR-based	HRV + temp patterns	Recovery scoring	Body Battery score	Second-by-second, most precise EDA skin response
Core Mission - Nervous System + Resilience	None	None	None	None	Core mission — nervous system + resilience
Scores/Gamification	Rings + streaks	Readiness score	Strain / recovery %	Body Battery %	None — intentionally
Goal	Keep you using it	Keep you using it	Keep you using it	Keep you using it	Guide you to not need us actively over time. BOLD!
In-App Intervention	Routes you to third-party apps (Calm, Headspace). No native intervention.	Integrates Headspace directly, recommends content based on your biometrics.	Huberman breathwork sessions built in + GPT-4 coach	Third party apps only, no native stress intervention.	Skill building in-app to support users and give them tools/confidence to use NOWATCH passively over time

No competitor is built around autonomic nervous system adaptation, GDPR-level privacy, and a subscription-free model simultaneously — and none are tracking allostatic load as a daily health metric.

BIOMARKER ARCHITECTURE

WE TRACK EVERYTHING CONSUMERS HAVE LEARNED - BUT WE GO FURTHER

Consumers already understand heart rate, sleep, steps. We deliver all of that — then ladder up to our Reactivity Monitor™.

FOUNDATION · What consumers already understand and expect

- Heart Rate (HR)
- Resting Heart Rate (RHR)
- Sleep Duration + Stages
- Steps / Activity / Movement
- HRV (Heart Rate Variability)

ELEVATED · Where NOWATCH goes beyond fitness trackers — continuous EDA + self-regulation tools

- Skin Conductance (EDA) — continuous
- Stress Reactivity Patterns
- Autonomic Nervous System State
- Recovery Time After Stress
- Female Cycle Tracking
- Feelings Check-In + Mood Logging

UNIQUE · NOWATCH Reactivity Monitor™ — only we do this

- **Body *AND* Mind Integration**
- **Mental Resilience / Load Support**
- **Pre-event Haptic Alert**
- **GDPR Data Privacy**
- **Compassionate Tech**

How to communicate this to consumers:

"Yes, we track your heart rate, sleep, steps, and HRV — everything you already know and trust. But those are inputs. NOWATCH connects them to your autonomic nervous system — the body's earliest warning system — to show how well you're adapting to daily demands. Your Reactivity Monitor™ tracks whether your system is building resilience or accumulating allostatic load. Over time, you develop real adaptability. Not FOMO. JOMO — the Joy of Missing Out — is a skill. We help you build It and confidence to trust yourself."

EARNED MEDIA STRATEGY

PR ENGINE AND CREATOR PROGRAM

Elle PR active. Q1 2026 plan running. UGC creators seeded. Not wellness influencers — people for whom NOWATCH is genuinely relevant.

PR PILLARS

Founder Voice

Tim and Joana in media — op-eds, podcasts, panels. Need update to Hylke's story as this is one of NOWATCH's most powerful content.

Science Storytelling

CSO-led ANS science and stress fingerprinting. 5 placements/qtr. Peer-reviewed credibility converts skeptics.

AI Search Readiness

All releases formatted as AI source material. Truth File maintained. Target queries: 'screenless wearable for stress.'

Independent Voices

5 key relationships: 1 podcaster, 2 Substacks, 2 YouTubers. Affiliate model. Long-form, AI-scrapeable, high-trust.

Creator Retelling

3–5 trusted creators tell the story in their own voice. Truth File + creative freedom. No briefs. No scripts.

CREATOR PROGRAM

SKATEBOARDER

Measures real-world exertion vs. cognitive load. Shows NOWATCH on a body that doesn't look like a wellness brand.

TRAMPOLINE ATHLETE

Precision timing under physical stress. Visually arresting. Reaches a niche with massive crossover appeal.

RAPPER / SPOKEN WORD

Stress in a creative career is invisible. NOWATCH makes it visible. High authenticity — low wellness-influencer overlap.

LONG-FORM PODCASTER

Trust-based format. 60+ min episodes = deep product integration, not a 15-sec spot. Educated, high-intent audience.

YOGA PRACTITIONER

The expected one — but owned right. Mindfulness + body signal awareness is the core NOWATCH narrative made physical.

YOGA PRACTITIONER

The expected one — but owned right. Mindfulness + body signal awareness is the core NOWATCH narrative made physical.

EVENTS STRATEGY — WHERE THE COMMUNITY IS BUILT IN PERSON

NOWATCH: DRIVING JOMO FROM FOMO

The world is running on FOMO — Fear of Missing Out. Every notification, every feed, every ping is designed to make you feel behind. NOWATCH is the brand of the other side: JOMO — Joy of Missing Out. Every event we attend or host must embody that shift.

EVENTS WE ATTEND — Credibility Stages

LIVELONG Health Summit April 2026 · USA	Premium longevity + healthspan conference. Speaking slot + product presence. Our Longevity Elites ICP in one room. First major USA stage of 2026.
HLTH USA October 2026 · Las Vegas	5,000+ healthcare leaders, payers, digital health innovators. B2B/clinical credibility. Insurance and corporate wellness conversations happen here.
Eudemonia November 2026 · Los Angeles	The premier longevity and wellness conference. LA pop-up retail opens ahead of it — touch-and-feel conversion at peak audience density. Our biggest US event of 2026.
HLTH Amsterdam (HLTH) June 10–18, 2026 · Amsterdam	European health-tech credibility stage. HQ home territory. Coordinated with Amsterdam brand moments — aligns with NOWATCH European roots + global science narrative.
Oxford/Future of Health / Mental Health 2026–2027 · Various	Oxford, APA Annual Meeting, One Mind Accelerator, Milken Institute Health Summit. Doctor network seeding. Clinical credibility. Insurance conversation pipeline.

EVENTS WE HOST — Community + Culture

Bakery Rave USA Los Angeles · Pre-dawn, phone-free	Phones locked at the door. Bread rising while bodies move. The brand's most literal JOMO experience — pleasure, presence, and community. Zero screens. All body. Media magnet.
Tech-Free Gathering USA Los Angeles · Quarterly	No devices, no agenda — just the NOWATCH community in a space designed for presence. Compassionate tech philosophy made physical. Journalists and thought leaders invited.
Offline Club Santa Barbara, CA · US West Coast hub	NOWATCH-hosted series in partnership with Santa Barbara Magazine. Outdoor, screen-free, data-informed but not data-obsessed. Targets our Longevity Elites ICP on the US West Coast.
California Magazine Partnership Los Angeles/Santa Barbara / California · 2026	Editorial partnership for 'compassionate tech' content + co-hosted events. Reaches affluent California wellness readers — our most concentrated USA Longevity Elite market. California Magazine
Compassionate Tech Summit USA / Amsterdam · 2027	NOWATCH co-hosts a summit on conscious technology design: digital minimalism, nervous system science, employer duty of care. Establishes thought leadership beyond product category.

JOMO = the Joy of Missing Out. Coined by Anil Seth, popularized by Christina Wallace. Every NOWATCH event — attended or hosted — is a proof point that opting out of constant stimulation is not deprivation. It's the practice. Partners in consideration: Offline Club (global), California Magazine, Santa Barbara wellness community.

USA MARKET RATIONALE

USA. NOWATCH'S BIGGEST OPPORTUNITY & OUR BIGGEST TENSION. OUR BRAND VALUES PROTECT US IN A VOLATILE US CLIMATE.

Why USA Now

- Majority of current revenue coming from USA
- Chronic adaptation failure is acute — Americans struggling to adapt to daily demands are our most mission-aligned customers. Mental wellness is the outcome we help them reach.
- US corporate wellness market: $23B growing 7%+/yr
- HSA/FSA eligibility unlocks (HQ: FSA/HSA campaign active)
- FDA relationships/approvals = global regulatory passport (Canada, UK, EU reciprocity)
- World Cup 2026 on US soil — sports credibility entry plus COMO, starting May 1
- Largest ANS health, longevity, and mindfulness podcast ecosystem in the English-speaking world

The Tension We Must Name

Our leadership has expressed discomfort with US political direction.
This is valid. However: anxious, divided , increasingly stressed Americans are seeking grounding and may be our most mission-aligned customers right now. The answer is a values-driven US strategy — not an avoidant one.

Geopolitical Futureproofing

- Amsterdam HQ + GDPR-first = brand asset vs. US data anxiety
- FDA = regulatory passport for global markets, not just US compliance
- No Amazon exclusivity — protect customer data + brand equity
- HQ: US Shopify store configured and connected (in plan early Q2 2026)
- USA Fulfillment locally sourced - when HQ is ready

BOUTIQUE RETAIL & PREMIUM B2B — THREE TIERS, TARGETING HIGH-INCOME US MARKETS

THE PREMIUM PARTNERSHIP TIER: WHERE BRANDS BUILD

Between online-only and big box retail, there's a critical middle tier — premium partners that protect our positioning while getting NOWATCH on wrists in the right audiences.

PREMIUM HOSPITALITY & SPA

1 Hotels Global	Health-conscious, design-forward guests — our exact customer. In-room gifting + spa retail in every US city.
Six Senses Spas Global	Ultra-premium nervous system recovery chain. NOWATCH as guest amenity or retail item is completely natural.
Canyon Ranch AZ · MA · NV	America's most iconic luxury wellness resort. Guests spend $1,000+/night for health outcomes — perfect take-home.
Golden Door Spa San Marcos, CA	Consistently top-ranked US spa. 7-day all-inclusive restorative programs: mind, body, spirit. Farm-to-table, daily massages. Total alignment.
Sensei Porcupine Creek Rancho Mirage, CA - Hawai'i - Baja	Co-founded by Larry Ellison + Dr. David Agus. Data-driven wellness (Move, Nourish, Rest) on 230-acre estate. Science + luxury mirrors our brand.
The Ranch Malibu Malibu, CA	Results-oriented luxury wellness bootcamp. Structured hiking, fitness, plant-based nutrition. Immersive stress + recovery cycle — our product in action.
Pritikin Retreat Miami, FL	Physician-driven, nutrition-based luxury wellness with medically designed plans. Preventative medicine focus — doctor-recommended NOWATCH fits perfectly.
Auberge Resorts 26 USA hotels, 6 in Mexico, 5 EU	Boutique luxury with spa treatments and high-net-worth wellness guests. Curated wellness gift retail and programming.

HIGH-END BOUTIQUES BY MARKET

Los Angeles, CA **Maxfield LA**	LA's most discerning luxury boutique. Bottega, Celine, Raf Simons. Editorial taste-maker for premium wellness tech aesthetics.
New York, NY **The Conservatory**	NYC's leading wellness-meets-design boutiques. Manhattan + Brooklyn high-income health-conscious consumers. The Conservatory also in Dallas, TX
San Francisco, CA **The Webster**	Design-forward boutiques serving tech-affluent SF consumers
Texas — Austin + Dallas **Forty Five Ten**	Texas's answer to Maxfield. Design-forward luxury with wellness angle — positions NOWATCH as a lifestyle investment.
South Florida — Miami **The Webster Miami**	Culture-forward luxury retail reaching the South Florida 's Ball Harbour — high-income wellness audience from HQ audience map.
Chicago, IL **Ikram / P.O.S.H.**	Chicago's leading design boutiques. Affluent North Shore and River North consumers investing inlifestyle.
Boston, MA **Alan Bilzerian**	Boston's premium lifestyle boutique. Biotech-adjacent professionals, health-conscious academics and executives.
Corporate EAP expansion Fortune 500 HR Teams	Employee Assistance Programs. Zero infrastructure — a volume pricing page. HQ: B2B deals (Qatar, Rituals) in plan.

PERFORMANCE & WELLNESS

EXOS Athletic Performance	NFL, NBA, US military, Fortune 500. Their trainers recommend NOWATCH to the highest-performing humans on earth.
Equinox Fitness & Love.Life Premium Gyms — National	EQUINOX: 100+ premium gyms globally. LOVE.LIFE: one location founded by Whole Foods founder. Both are health-obsessed personal trainers are credibility gatekeepers. Product placement + seeding.
Goop Wellness Media + Retail	Already carried Oura. Direct access to 40M-reader audience — the prototype NOWATCH buyer. Editorial + brick / mortar retail.
Erewhon Wellness Grocery - 11 CA locations	Cuturally influential wellness retail. Where trend-forward health consumers discover products. In-store display. Opportunities and consumer facing events.
Barry's Premium workout — Global	100+ studios in 14 countries, affluent health-obsessed clientele. Teacher seeding: instructors model stress awareness and recovery.
LifeTime Fitness Luxury Athletic Clubs	190 high-end fitness clubs nationally. Member lounge display + trainer gifting. Affluent professional members in all target markets.
SoulCycle Boutique indoor Cycle	90 high end locations with heaviest concentrations in CA and NYC (24 and 28 respectively)
O.P.E.N. Boutique indoor Cycle	Prominent LA-based breathwork partner opportunity.

When to pursue: Hospitality + geo boutiques start 2026 — no minimum sell-through. Boutiques need 2–3 sample units + sell sheet. Performance orgs (ex. EXOS) need a short B2B deck. Never discount to enter any of these channels.

PRODUCT LADDER — ALIGNED WITH HQ HARDWARE RELEASES

THREE PRODUCTS, THREE AUDIENCES, ONE MISSION

Add ecg and eda/B with stones high end play

NOWATCH X

Premium · Screenless Hero

Flagship DTC product

Target Audience

Longevity Elites, design-forward consumers, executive gifting

GTM Note

Hero product per PR plan. All earned media and thought leadership emphasis on X. Protect brand ceiling — DTC + boutique only.

$650 · No subscription · $0.89c/day for two years

Oura: $349 + $6/month required. WHOOP: $199–$359/year required. NOWATCH: one price, no recurring fee, ever.

HQ: Artisanal Model live Q2 2026 · Artisanal Builder/EU artist Q2

MODEL B

Accessible · Volume Driver

Shipping now via Shopify

Target Audience

Wellness Enthusiasts, health-conscious mainstream, corporate wellness

GTM Note

Organic demand already forming. No waitlist — it's live. Primary USA revenue driver 2026. Scale with PR + UGC.

$450 · No subscription · $0.62c/day for two years

Oura: $349 + $6/month required. WHOOP: $199–$359/year required. NOWATCH: one price, no recurring fee, ever.

HQ: COMO Edition (limited edition) — May 2026 · Stone Chronicles summer

IMPACT

Q4 2026 Launch

USA grant-funded / subsidized

Target Audience

AA, Girls Inc, NAMI chapters, underserved adults and youth, nonprofit orgs

GTM Note

SAMHSA, RWJ grant applications start Q3 2026. FDA pathway begins here. Youngest demographic access.

Grant-subsidized · pricing TBD

Channel: Grant applications Q3 2026 → device distribution Q4 2026

IMPACT Grant Strategy:

Apply to SAMHSA, NAMI, MHA, Meditate LA/David Lynch Foundation, AA, Girls Inc, (build out lists of others and prioritize) for tech-enabled mental wellness grants and partnerships for device distribution. Grant-funded channel = most capital-efficient path to underserved + younger consumers. LA Unified School (520k students across 1k schools - we have access to this via a freelance partner.

PRIORITY PILLARS — SIX NON-NEGOTIABLE USA MARKET INVESTMENTS

SIX CRITICAL USA MARKET PILLARS

FDA PATHWAY

FDA relationship = global credibility. We need knowledge and how to advance into meetings to be 'at the table' now. Second-by-second EDA data is our clinical asset — no competitor has it. Add data privacy and health-friendly, non-addictive user experience to further differentiate.

Start Q3 2026

USA BASED UNIVERSITY RESEARCH

Explore with Science team TBD IRB* approved studies in 2026 — academic medical center (Columbia, UCSF, or UT). Study design: NOWATCH vs. control in ANS adaptation and allostatic load outcomes. COMO FC athlete data accelerating baseline. Peer-reviewed publication = further differentiation.

*IRB - Institutional Review Board

Design now / implement starting Q3 2026

DOCTOR / CLINICIAN NETWORK

Target psychiatrists, therapists, integrative MDs, corporate EAP directors. Clinical ambassador program: 100 clinicians who recommend NOWATCH to patients. The Whoop personal-trainer-to-athlete strategy — applied to ANS health and daily demand adaptation.

Ideate targets now / implement starting Q3 2026

INSURANCE COMPANY PARTNERSHIPS

UHC, Devoted Health, John Hancock Vitality. Pathway: clinical data → HSA/FSA eligibility → full reimbursement. FSA eligibility alone reduces effective consumer price by ~$100.
HQ: FSA/HSA setup + campaign already in financial plan.

Explore Q2 2026 / first partnership target Q4 2026

CORPORATE WELLNESS B2B

Target CHROs and EAP directors. Executive gifting requires zero infrastructure — just a volume pricing page. Burnout prevention program pitch by Q3 2026.
HQ: B2B deals (Qatar, Rituals) already in marketing calendar.

Gifting starts now

GRANT & NONPROFIT CHANNEL

SAMHSA, Robert Wood Johnson (RWJ), Schmidt Futures all fund tech-enabled mental wellness. IMPACT model is the vehicle. 6–12 month application lead times — start now. Most capital-efficient distribution channel for underserved + younger demographics.

Applications Q3 2026

CHANNEL STRATEGY — SEQUENCED BY READINESS, NOT AMBITION

CHANNELS: HONEST FLOW

NOW (2026)

- DTC via Shopify — ships Amsterdam → USA today
- PR earned media — ANS health, daily demand adaptation + design angles
- UGC: 5 diverse creators (skater, trampoline, rapper, podcaster, yogini)
- Executive gifting B2B — no infrastructure needed, start immediately
- Podcast sponsorships: ANS health, adaptation + mindfulness shows
- Clinical partnerships
- COMO FC launch May 1 — athlete data + World Cup buildup
- USA based University Research in place
- AI search readiness: Truth File, structured releases, audit quarterly
- Premium boutique partnerships: 1 Hotels, Canyon Ranch, Erewhon, geo boutiques
- USA product + app testing cohort — 25–50 real users across all three ICPs. Structured feedback loop into UX and onboarding.

LATE (2026)

- Boutique retail: Canyon Ranch, Goop, Erewhon, geo boutiques (20–30 doors)
- IMPACT nonprofit distribution + grant-funded channel
- Corporate wellness programs (EAP + CHRO direct sales)
- Clinical ambassador: 50 MDs/therapists recommending NOWATCH
- Pop-up retail: LA — solve the touch-and-feel conversion gap
- Insurance pilot programs + HSA/FSA eligibility application
- Substack + YouTube independent voice relationship program
- EXOS and large scale partnerships — athlete performance trainer seeding. Calm, Headspace and others o-p-e-n

NEXT (2027+)

- Big box: BEST BUY, Target, WalMart and Costco — only after FDA + published study — gated behind clinical legitimacy
- Full insurance reimbursement integration
- EHR / digital health platform integrations (Epic, Apple Health)
- Full enterprise B2B suite for ANS health and daily demand adaptation programs
- Tiered big box: BEST BUY, Target, WalMart and Costco — only after FDA + published study — gated behind clinical legitimacy

ONGOING

The below help to close the loop between acquisition and loyalty and connects the JITAI philosophy to a business outcome

Onboarding — 7-day email sequence post-purchase. Day 1: welcome + first wear. Day 3: first data pattern explained. Day 7: your load baseline is set. Converts first-time wearers into daily habit.

Referral program — double-sided. Existing customer gets $50 credit. New buyer gets $50 off. Referral-acquired customers retain at 37% higher rates (Whoop benchmark). Target: 15% of new orders from referrals by Q3.

Community — IRL events (Livelong, HETH, Eudemonía) plus private digital space for early adopters. Not a forum. A curated group of people who take their nervous system seriously.

JITAI nudges — the app's adaptive intervention logic keeps users engaged without gamification. Right nudge, right moment, silence when not needed. This is the retention mechanic built into the product itself.

USA SUCCESS METRICS

2026 GOALS: TRACKING PROGRESS

Q2 2026

CREATORS

Active Creator Partnerships

5 core + 5 gifted/mo

5 UGC creators (skater, trampoline, rapper, podcaster, yogini) plus monthly gifting.

FOUNDER PR

Founder Media Appearances

1–2 per month

Interviews, op-eds, speaking slots. At early stage the founder is the brand — Tim Manschot and Joana de Calheiros Velozo in media — op-eds, podcasts, panels.Rework Hylke's story for NOWATCH's founder reason OR point of genesis

HAPPINESS

Would Customers Recommend Us?

NPS Score 55+

0–10 scale. 55+ means far more fans than critics. Apple Watch scores 50–65.

COST TO ACQUIRE

Cost to Get One Customer

$80–150 per buyer

Total spend ÷ new buyers. PR and UGC keep this below ad-reliant brands.

PODCAST

Recurring Podcast Sponsorships

4–6 shows secured by Q2

Huberman Lab-adjacent wellness shows. Highest-ROI paid channel for $300+ products — audience is already in a self-improvement mindset.

SCIENCE

Research Partnership Underway

One study in design by Q3

A formal study with a university or hospital. COMO athlete data helps accelerate baseline.

Q3 2026

AI VISIBILITY

Showing Up in AI Search

Top answers for key queries

When someone asks AI 'best screenless wearable for stress?' — NOWATCH appears. Truth File drives this.

PRESS

Stories Published About NOWATCH

8–10 per quarter

Articles, reviews, features. Elle PR pitching Vogue, Wired, NYT Well, Women's Health, GQ.

FDA

First FDA Conversation

Pre-sub meeting by Q3

A free first meeting with FDA to ask: 'What would we need to prove?' Kickstarts the 18–24 month pathway.

REVENUE

2026 USA Revenue Target

$3.6M gross revenue

8,400 units · avg. $432/unit (€400 AOV).
Quarterly ramp: 1,000 → 1,750 → 2,250 → 3,100 (80% of global)
90% DTC · 10% corporate/B2B
Ramping to sell 3x what we sold in Q1
*based on a 80/20 ASP - need final COGS once USA-Shopify is in place for updated margin - global CAC target $100-$150

Q4 2026

LOYALTY

Still Wearing It a Year Later?

70%+ active at 12 months

Out of 100 buyers, 70+ still using it one year later. Industry avg is 25. Oura: 88%.

WORD OF MOUTH

Sales from Personal Recommendations

15%+ of new orders

When a customer tells a friend and they buy. Referral customers retain at 37% higher rates.

B2B

Companies Buying for Their Teams

5–10 corporate accounts

Companies buying 25+ units. Executive gifts or wellness perks. HQ B2B deals (QATAR, Rituals) in plan.

IMPACT

Nonprofit Partners Signed

2–3 organizations by Q4

Agreements with AA, Girls Inc., or NAMI. Devices subsidized via grants — not charity, capital-efficient.

FROM FOUNDATION TO STRATEGY

THE GROUNDWORK IS LAID NOW WE EXECUTE

2025 was not a slow year. Clinical partnerships, peer-reviewed publication, product live, PR engaged, COMO signed. Every 2026 move activates on top of this — not instead of it.

2025 — WHAT'S BUILDING

CLINICAL

- Published: ScienceDirect paper (2025) — peer-reviewed, European institutions
- 10-year €20M EU consortium: U. Twente, VU, Utrecht, Erasmus, Groningen
- UBC Canada: stress monitoring in concussion / TBI recovery — active
- ETH Dresden + Erasmus MC: stress, obesity, bone health — active
- Radboud NeuraWear: open-source sleep/stress algorithms — active, ...plus La Salle Barcelona (stress + speech) and Leiden/NIMH (depression + anxiety management).

PRODUCT & SALES

- Shopify USA live — shipping, checkout, returns, US customer service
- FSA/HSA eligible + live on Flex marketplace (200K+ members)
- NOWATCH X as hero product — all earned media + boutique placements
- Affirm/Klarna financing live — 12-installment payments

PARTNERSHIPS

- COMO FC signed — launches May 1, 2026. Athletes as data subjects
- Elle PR engaged — Q1 2026 plan active, 8–10 stories/quarter
- 5 UGC creators onboarded — skater, trampoline, rapper, podcaster, yogini

EVENTS & EARNED MEDIA

- LIVELONG Women's Health Summit — April 17–18, San Francisco

TESTING

- **USA USER TESTING COHORT** Structured real-user testing program for app and product experience. 25–50 USA-based participants across Wave 1, 2, and 3 ICPs. Feedback loop feeds directly into UX, onboarding, and feature prioritization. Closes the gap between first wear and daily habit — the single highest-leverage product improvement available without a hardware change.

2026 — WHAT ACTIVATES NEXT

SALES & RETAIL

- Executive gifting B2B — volume pricing page, zero infrastructure
- Premium boutique pilot: 1 Hotels, Erewhon, Canyon Ranch, Maxfield LA
- LA pop-up retail ahead of Eudemonia (Nov 2026) — NYC to follow
- Corporate wellness pilots: 3–5 companies via CHRO/EAP director

CLINICAL & MEDICAL

- FDA pre-submission meeting — Q3 2026. Understand the pathway
- Doctor network launch — Year 1: 50 psychiatrists + integrative MDs
- Insurance conversations: UHC, Devoted Health, John Hancock Vitality
- SAMHSA + RWJ grant applications — Q3 2026 start (6–12 month lead time)
- QATAR partnership exploration (timezones and jet-lag).
- Brown University - stress & relapse study underway.

EVENTS & EARNED MEDIA

- OXFORD Health Summit — Sept 14-17, Oxford
- HL:TH Summit NL — June 10–18, 2026. European health-tech credibility
- Eudemonia — November 2026. Premier longevity conference, LA
- World Cup 2026 media window — 14 US cities, athlete data narrative live

PRODUCT PIPELINE

- Artisanal Model B live + new launch — Q2 2026
- COMO Edition (limited) — May 2026 alongside FC launch
- Together feature dashboard + Cycle tracking — HQ Q2 2026
- Brand + messaging refresh: new name shortlist, identity, launch

NOWATCH USA

2026 EVENTS · ROI · GOALS · FORWARD ACTIONS

ATTENDANCE · MENTAL HEALTH · OXFORD

Masters at Oxford

Sept 14–17 · Daniel, Markus, Joana · Travel TBD

2,000+ attendees. Largest trauma & mental health conference in Europe. 40% American, 50% European. No exhibits yet — NOWATCH could be the game changer.

mastersatoxford.com

BOOTH · SPEAKING · TECH HALL

Eudemonia

Nov 5–8 · $15,000

8,000+ expected in 2026. 150+ experts: neuroscience, longevity, functional medicine, wellness tech. Executive track for founders & investors. Focus: compassionate tech & togetherness.

eudemonia.com

JUNE · SEPT · NOV · DEC

BOOTH · LARGEST IN EUROPE

HLTH Europe Amsterdam

June 15–18 · $10,000

6,000+ attendees, 350+ speakers, 67 countries. One in three at C-suite level. Health providers, startups, life sciences, pharma & biotech.

hlth.com/europe

BOOTH · SPEAKING · NYC

LIVELONG New York City

Sept 25–26 · $18,000

Women's health & longevity summit. Booth, attendees, and speakership. Building on LIVELONG SF: 300+ conversations, two unsolicited stage endorsements.

livelong.com

While we'd prefer to attend this to establish an East Coast consumer footprint and long-term partnership with LIVELONG, we'll likely forego this and focus on Spring 2027 LIVELONG.

SPEAKING · LARGEST IN USA

HLTH USA Las Vegas

Nov 15–18 · Travel TBD

12,000+ attendees, 400+ speakers, 900+ sponsors. Providers, payers, pharma, employers, startups, investors, policymakers, and big tech.

hlth.com/us

WHY WE SHOW UP — ROI & GOALS

01
Pipeline & Deal Acceleration
Warm conversations compound — no ad replicates this. Prepare 20 high-priority meetings in advance and queue opportunities to move into a formal pipeline.

02
Brand & Field Feedback
Hear how our narrative lands — where it works and where it doesn't. Real objections and real desire, heard directly and unapologetically.

03
Credibility
Being in the room signals NOWATCH is serious and here to stay. All attendees are potential consumers — the B2C/B2B line blurs at events.

04
Partnerships
Prepare ideal corporate wellness partnerships, insurance providers, peer brands, thought leaders, credible clinicians and industry experts.

05
Evangelists & Community
Everyone at the event is a potential NOWATCH evangelist. Getting people of all levels to try on a NOWATCH in person builds belonging — and belonging spreads into inner circles, companies and beyond. Absence is also a signal — to clients, prospects, and talent.

06
Emotional Imprinting
The moment someone wears a NOWATCH and sees their own data in real time is a brand impression no ad can replicate. Felt experience converts faster than any funnel.

07
Earned Media
Excited attendees post, tag, and share on the spot.

08
Competitive Intelligence
Learn what Oura, Apple, WHOOP, and Garmin are saying in real time — booth messaging, who they're meeting, how they're positioning. Hard to get this any other way.

09
Data & Content Harvest
Every event generates raw material — testimonials, demo footage, stage moments, endorsements. One event feeds weeks of content and proof points post-show.

10
Board Visibility
These events specifically draw potential advisory members, policymakers and more. Being in these venues with a product is a strategic partnership move, not just sales.

FORWARD ACTIONS

PRE-EVENT

01 **IDENTIFY & BRIEF**
Assign top 20 target conversations to team members with context before arrival.

02 **TRAIN THE PITCH**
Practice until the explanation gap is closed. Clarity should be instinct, not effort.

03 **COORDINATE WITH HQ**
Create workflow with and brief HQ before every event. Align on real-time posting, content capture, and post-event amplification.

DURING

04 **STAFF TO SELL**
Free teammates up to network. Dedicate staff specifically to opening/closing.

05 **ACTIVATE THE REFERRAL ENGINE**
Referral program live at every booth. Superspreader opportunity still uncaptured.

06 **CAPTURE EVERYTHING**
Assign a named owner to record demos, collect testimonials, and document stage moments.

POST-EVENT

07 **48-HOUR FOLLOW-UP**
Every warm conversation gets a follow-up within 48 hours. Named owner, specific message.

08 **DEBRIEF & FEED FORWARD**
One-page report: what worked, pipeline generated, what changes for next time.

INTEGRATED CHANNEL OVERVIEW — ALL TACTICS, ONE VIEW

ALL PISTONS FIRING

NOW | LATER

OWNED

OWNED · NOW

BLOG

Science-first content. ANS education, stress explainers, research digests. SEO engine — highest-ROI long-term acquisition channel.

OWNED · NOW

SOCIAL

Instagram: brand + lifestyle. YouTube: expert interviews + education. TikTok: virality + Gen Z. LinkedIn: B2B + thought leadership.

OWNED · NOW

REFERRAL PROGRAM

Double-sided mechanic. Referral-acquired customers retain 37% higher. Target: 15%+ of new USA orders from referrals.

OWNED · NOW

NEWSLETTER

Editorial newsletter in the spirit of Kinfolk — slow, science-backed, beautifully written. Nurture and retention.

OWNED · NOW

IRL COMMUNITY

Tech-free raves, silent discos, phone-free dinners, digital detox meetups. NOWATCH as the badge of entry. Offline as a lifestyle.

EARNED

EARNED · NOW

PR

Elle PR running. 8–10 stories/qtr. NYT Well, Vogue, Wired, GQ, CNN Health, Well+Good, Fast Company, WSJ Magazine.

EARNED · NOW

FOUNDER MEDIA

Tim + Joana interviews, op-eds, speaking slots. Founder story is a powerful media asset for NOWATCH *needs finalizing*— program it deliberately.

EARNED · NOW

UGC CREATORS

Initiated with five core creators: skater, trampoline artist, rapper, podcaster, yogini and starting March 22 amplify and include TikTok to fuel Meta for Frank

EARNED · NOW

INFLUENCERS & SUBSTACKS

Thought leaders (Tim, Joana). 2-4 Substacks (Offline Time, Mind Wise). 2-4 YouTubers. Affiliate model in full steam and for shorter margins than wholesale partnerships. AI-scrapeable content.

EARNED · NOW & '27

2026 EVENTS & 2027 CES

LIVELONG Health (Apr 2026). HEALTH Summit Amsterdam (Jun 2026). Eudemonía (Nov 2026). Branded and stage presence, peer relationship building, industry credibility, consumer connectivity and product demo at each.

2027 CES kicks off with Impact, further expanding reach to users, B2B partners and grants focused on mental health support.

PAID

PAID · NOW

CONSUMER FUNNELS

Shopify DTC. FSA/HSA w/Flex launch and Flex marketplace (200K members). TBD "pay over time" financing for USA consumers.. Day-in-life retargeting from UGC content.

PAID · NOW

PODCASTS

2–3 shows per month. Accessible, credible and smaller podcasts in Q1-Q2 2026 with dream podcast goals - ie: Mel Robbins or Huberman Lab-adjacent: mental health, mindfulness, longevity and compassionate tech. Highest-ROI channel for $300+ wellness products.

PAID · NOW

AI SEARCH READINESS

Truth File maintained. All releases structured as AI source material. Target: top three answers for '*screenless wearable stress tracker*' or other targeted - TBD with HQ team'.

PAID · NOW

D2C STRATEGIC ADS

Boosted content following creator accounts. Meta + YouTube retargeting. Day-in-life creative from UGC pipeline.

B2B & RETAIL

RETAIL · Q2-3

CORPORATE WELLNESS B2B

Executive gifting: zero infrastructure. Volume pricing page only. Pilot wellness programs with CHRO/EAP. HQ: Qatar, Rituals in plan.

B2B · Q2-3

EXPERT PARTNERSHIPS

COMO FC (May 1). EXOS (Q3-Q4 2026). LifeTime Fitness. Value-add: Flex HSA/FSA Marketplace - more

RETAIL · Q2-3

PREMIUM HOSPITALITY

1 Hotels, Six Senses, Canyon Ranch, Golden Door, Sensei Porcupine Creek, The Ranch Malibu, Pritikin. Initiate conversations starting Q2-Q3 2026

RETAIL · Q2-3

HIGH-END BOUTIQUES

Maxfield LA, IF Soho, Azalea SF, Forty Five Ten TX, The Webster Miami, Garbarini Denver. 2–3 sample units + sell sheet.

RETAIL · Q2-3

POP-UP RETAIL OPPORTUNITIES

NYC, LA + one TBD. Solves the touch-and-feel problem critical for wearables. 24-month payback window. Brand moment + conversion.

RETAIL · Q2-3

PERFORMANCE & WELLNESS

Erewhon, Goop, Equinox, EXOS, Lifetime Fitness, SoulCycle/Barry's. Seeding + placement starts now.

CLINICAL

CLINICAL · NOW

CLINICAL RESEARCH

Active: 10-year €20M EU consortium. UBC concussion study. ETH Dresden. Radboud. Published: ScienceDirect 2025. COMO data input.

CLINICAL · NOW

FDA PATHWAY

Pre-sub meeting Q3 2026. 510(k) for stress/mental wellness monitoring. 18–24 month pathway. FDA = global regulatory passport.

CLINICAL · NOW

DOCTOR NETWORK

50 MDs + therapists Year 1. 100 by 2027. Psychiatrists, integrative MDs, corporate EAP directors. Clinical ambassador program.

B2B · 2027

NGO + GRANT PARTNERSHIPS

We'll need to begin queueing these up in 2026 - SAMHSA, RWJ, Schmidt Futures. IMPACT device channel. AA, Girls Inc, NAMI chapters. Applications start Q3 2026.

RETAIL · 2026

PERFORMANCE & WELLNESS (full rollout)

Goop, Equinox, Erewhon, EXOS, LifeTime Fitness, SoulCycle/Barry's. Full product placement at scale.

B2B · 2027

INSURANCE PARTNERS

UHC, Devoted Health, John Hancock Vitality. Trials 2026. HSA/FSA eligibility Q2 2026. Full reimbursement 2028.

NOW = active or starting immediately · 2026 = this year · 2027 = after clinical proof begins · CLINICAL row = primary competitive differentiation — no fitness tracker can replicate this without becoming a different company.

USA MARKET STRATEGY — CLOSING

WHAT NEXT

HQ APPROVAL — PRIORITY #1

THREE BETS TO GET RIGHT

We are requesting approval for the below blended activation budget, two hires (USA Channel Lead + FDA Relationship Expert), and a 12-month mandate to execute the USA GTM plan as presented. The USA foundational elements secure — accounting, legal and a go-to fulfillment/warehousing partner — and the market is moving forward at full speed.

THREE BETS TO GET RIGHT

1 OWN AUTONOMIC HEALTH COMPLETELY

Daily demand adaptation is the category. Mental wellness is the outcome. We define it.

Oura added Cumulative Stress (Nov 2025). WHOOP published a mental health study in JMIR (Jun 2025). Both are fitness-first — bolted-on stress layers. NOWATCH is different in kind: dedicated second-by-second EDA, purpose-built for the ANS, with a philosophy no competitor can adopt without becoming a different company.

ADAA, CDC, APA 2024. 'Nervous system dysregulation' — 500M+ TikTok views.

2 BUILD COMMUNITY THROUGH DIVERSITY

Not demographics.

The organic Model B demand signal is real — formalize it with a referral and retargeting program. The UGC program will reach audiences traditional wellness brands ignore. COMO FC + World Cup 2026 unlocks sports credibility at the perfect cultural moment. Three audiences, one intergenerational conviction.

World Cup 2026: 5B viewers, 14 US host cities. Referral-acquired customers retain at 37% higher rates.

3 SPEED ON CLINICAL, INSURANCE & FDA

Patience on big retail.

No Best Buy or Target until FDA clearance + one published study. Move fast: FDA pre-sub Q3 2026, clinical research partner Q4 2026, insurance company conversations initiated Q3-4 2026. These create compounding credibility advantages no marketing spend can replicate.

FDA 510(k) pathway: 18–24 months. Oura HSA/FSA model provides precedent.

HIRE — IMMEDIATE

USA CHANNEL LEAD - FT ROLE

Takes the reins from Michiel. Owns UGC pipeline, affiliate program, LinkedIn content, event support, and research liaison. The operational engine of USA activation.

HIRE — MID-TERM

FDA RELATIONSHIP EXPERT - CONTRACT

Specialist in 510(k) and de novo pathways for ANS health and daily demand adaptation devices. Drives the pre-sub meeting by Q3 2026 and owns the FDA relationship long-term.

PHASE 1 — ACTIVATE (Q1–Q2)

Lifestyle content creation	$10,000
LIVELONG Event & Travel	$12,500
HL:TH Amsterdam Event & Travel	$ 5,500
Total	$ 28,000

PHASE 2 — BUILD (Q3)

Research partnership x 1 (USA University)	$ 15,000
Pop-up retail (1 market)	$ 7,500
IRL Community events x1	$ 7,500
Oxford Master Event (14-17Sept)	$ 5,500
Total	$ 35,500

PHASE 3 — SCALE (Q4)

Boutique + hospitality seeding	$ 2,500
IRL Community events x2	10,000
EUDEMONIA Event & Travel	$ 15,000
HLTH USA Event & Travel (Nov. 15-18 Vegas)	$ 8,000
Total	$ 30,500

ANNUAL 2026 (monthly)

USA Channel Lead - May 1	$ 5,500
FDA Expert Retainer - Aug 1	$ 5,500

SCIENCE / ADVISORY BOARD — ASSEMBLE Q3-Q4

PPG CARDIOLOGIST

With PPG being the underlying technology behind NOWATCH's heart rate and HRV data, a cardiologist specializing in PPG will bring the clinical precision to validate that the readings meet the bar for medical-grade credibility. This seat directly supports the FDA pathway. The cardiovascular biomarker accuracy is one of the first things a 510(k) reviewer will scrutinize. It also anchors the broader narrative that NOWATCH is not a fitness tracker bolting on wellness features, but a clinically serious instrument built from the cardiovascular layer up and science-led.

PSYCHIATRIST - MENTAL WELLNESS

(Psychiatrist) The clinical voice bridging allostatic load science to FDA, insurers, and EAP directors. A prescribing psychiatrist carries the full weight of clinical authority in conversations with FDA, insurers, hospital systems, and corporate EAP directors — credentials a psychologist or therapist cannot replicate in those rooms. This seat grounds NOWATCH's nervous system and resilience framework in the language of clinical mental health, making the science story defensible to the most skeptical professional audiences. It also opens the door to the doctor network strategy — clinicians recommend what other clinicians have validated.

GUT HEALTH EXPERT

The gut-brain axis is one of the most rapidly validated pathways in autonomic nervous system science — chronic stress directly disrupts gut microbiome balance, and gut signals feed back into ANS state in real time.

This seat connects NOWATCH's EDA-based stress monitoring to one of the fastest-growing consumer health categories, opening clinical research angles and media narratives no competitor is currently pursuing. It also future-proofs the board as microbiome testing and wearable integration increasingly converge.

FDA / REGULATORY

The 510(k) and de novo pathways for a mental wellness wearable are navigable but highly specific — without someone who has walked this road before, the 18-24 month timeline becomes a guess rather than a plan. This seat turns the FDA relationship from a future aspiration into an active, managed process with clear milestones and no costly missteps. FDA clearance is also NOWATCH's global regulatory passport — Canada, UK, and EU reciprocity make this the single highest-leverage credential the company can earn.

AI / ML EXPERT

Second-by-second EDA data is only as powerful as the models built to interpret it — this seat ensures NOWATCH's signal processing, stress fingerprinting, and predictive algorithms are built to clinical and academic standards, not consumer app conventions. As AI-driven health insights become a category expectation, this expert keeps NOWATCH ahead of competitors who will attempt to replicate the feature set without the underlying rigor. It also directly strengthens the AI search visibility strategy — credible technical architecture is increasingly what surfaces in AI-generated health recommendations.

WE'VE DISCUSSED PITFALLS

FDA timeline slips — Clinical research and doctor network continue regardless. FDA is upside, not the foundation. **COMO FC under-delivers on media** — Partnership is one of eight channels. No single channel is load-bearing. **Oura moves hard into ANS**— They can add a feature. They cannot change their hardware, remove their subscription, or adopt our philosophy without becoming a different company. **USA market volatility** — Values-driven positioning is key. Compassionate tech and data privacy both have consumer stickiness regardless of political climate.

THANK YOU
